CHA - C02983308

AHA - P43533379

Powerball's first progeny have caught producers' attention with their natural thickness and extra muscle shape. Powerball daughters are deep bodied, thick, and feminine. Powerball sons are loaded with muscle, excelling in stifle expression and added round.

Powerball is the first son born out of a 2-year-old daughter of Canadian Agribition Champion Female, WLB 7M Fran 82S. Powerball is sired by proven Canadian calving ease sire WLB Lego 83T 90X.

Powerball progeny are proving their acceptability among breeders with the first five Powerball daughters selling in the United States and Canada averaging almost \$20,000.

Powerball progeny have garnered added attention for the breeders that participated in Powerball's two year semen exclusivity. That exclusivity expires on December 31, 2015 permitting us to make Powerball semen available to the general public for the first time on January 1, 2016.

Powerball Semen stored in the U.S. and Canada. Order now and semen can be shipped after January 1, 2016  
**\$75/unit, minimum of 10 straws**

**12<sup>th</sup> Annual WLB Bull Sale, March 22, 2016**  
Powerball sons sell!
